

Peel. Stick. Lift.

with the Lyftee[®] Lap Retractor

Belly got you down? Turn those fingers into a handle with the Lyftee Lap Retractor.

Try the *only* adhesive retractor designed specifically for tenting the umbilicus. It's simple, one-handed, abdominal wall retraction for your scoped procedures.

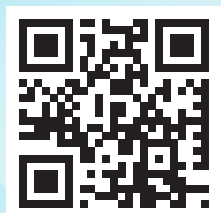

Do more without:

- Without towel clamps
- Without additional puncture wounds
- Without hand cramps
- Without the need of an assistant's hands
