

# Puckling

## Monitor Holder

Adjustable • Comfortable • Strap-Free

**"Oh wow, I feel like I can actually move now.. comfortably!"**  
— recent evaluation patient

# Puckling<sup>TM</sup>

## Why Clinicians Love Puckling<sup>TM</sup>

The Puckling may reduce staff workload by minimizing monitor repositioning, therefore reducing interruptions without compromising mom's comfort.

- Save time by focusing on the patient and not monitor troubleshooting.
- The Puckling<sup>TM</sup> is compatible with standard fetal monitoring pucks.

## For Patients

- Gentle, comfortable, and movement-friendly
- Secure fit during position changes
- Promotes a more natural birth experience by removing uncomfortable straps
